

## Purchaser enquiry of the health status of cattle

Please provide the following information concerning the health status of the herd from which the farmer named below is considering purchasing cattle. You may wish to ask your vet to help.

Vendor	
Purchaser	
Type of herd	
Type of cattle	

Is the herd a member of myhealthyherd.com?	YES	NO
If so, can you provide a completed <i>HealthVisa</i> disease declaration from myhealthyherd.com to define the infectious disease status of the herd (please provide a .pdf version of the <i>HealthVisa</i> by email)	YES	NO

If a complete myhealthyherd.com *HealthVisa* is available and sent by email, the rest of this form may not be necessary. If a complete *HealthVisa* is not available, please provide the following information:

For dairy herds only:

The last three bulk milk antibody / test results for the following diseases. If any test result is not available, please mark as N/A						
Disease	Date1	Result 1	Date 2	Result 2	Date 3	Result 3
BVD						
Lepto						
IBR						
Neospora						
Fluke						
Somatic Cell Count						

**For all herds**

Please indicate if and when any of the following diseases have ever been diagnosed on the farm

Disease	Tick if NO	Tick if YES	Date of last diagnosis and any comment
<b>Johnes disease</b>			
<b>Neospora</b>			
<b>IBR</b>			
<b>BVD</b>			
<b>Fluke</b>			
<b>Calf pneumonia</b>			
<b>Tuberculosis</b>			
<b>Leptospirosis</b>			
<b>Salmonella</b>			
<b>Ringworm</b>			

For either dairy or beef herds, please provide the following surveillance results for these diseases:

Surveillance strategy	Date of test	Number of animal tested	Positive	Inconclusive	Negative	Is the herd CHeCS accredited?
<b>Johnes disease:</b> result of any targeted surveillance screen (eg 30 cow screen test)						
<b>Johnes disease:</b> Result of any whole herd test (eg CHeCS qualifying test or HerdWise test)						
<b>BVD:</b> Result of any youngstock screen, bulk milk PCR, whole herd test etc						
<b>IBR:</b> Result of any blood test of youngstock, sentinels or whole herd						
<b>Leptospirosis:</b> Result of any blood tests of youngstock, sentinels or whole herd, or abortion enquiry						
<b>Neospora:</b> Results of any abortion investigations						

Please indicate below the vaccination status of the herd, and the animals which are intended to be sold

Vaccination	Brand of vaccine used	Date of last vaccination of adult herd	Date of last vaccination of cattle being sold	Date next vaccination due for cattle being sold
BVD				
IBR				
Leptospirosis				
Johnes				
Lungworm				
Blackleg				
Botulism				
Bluetongue				

Please provide any other information that you may think helpful to secure the health of the purchaser's herd, and also the cattle which are being purchased. Biosecurity is a two way issue, where cattle arriving on the farm may be at risk of endemic disease within the purchaser's herd.

**Declaration**

To the best of my knowledge, the information I have provided is true, and where there is any doubt, I have indicated as such.

Signed
